PROFESSIONAL SUMMARY

Backend-focused Full Stack Engineer with 3+ years of experience building production REST APIs, ERP modules and admin platforms using Node.js, NestJS, TypeScript, MongoDB and MySQL, with Next.js / React frontends. Experienced in performance optimization (caching, query tuning) and real-time features (Socket.io). Open to Backend, Full Stack and DevOps roles.

TECHNICAL SKILLS

Backend: Node.js, Express, NestJS, TypeScript, REST API Design, JWT Auth, Socket.io
Frontend: React.js, Next.js, Redux
Databases: MongoDB, MySQL, PostgreSQL, Redis
Cloud & DevOps: AWS, Docker, CI/CD, Git
Messaging: Kafka, RabbitMQ
AI: AI Chatbot Development, Prompt Engineering, AI-assisted Development

PROFESSIONAL EXPERIENCE

Evervent Pvt Ltd | *Backend / Node js Developer* Feb 2025 – Oct 2026

- Designed and optimized high-performance Node.js REST APIs handling large-scale data processing in production.
- Improved API response times and throughput by introducing caching and query optimization on large datasets under production load.
- Built Next.js UI components and integrated them with Node.js APIs to ship features end-to-end across the stack.

CQLsys Technologies Pvt Ltd, Mohali | *Mern Stack Developer* july 2023 – Nov 2024

- Built admin panels, REST APIs and customer-facing websites using the MERN stack, owning delivery from requirements to deployment.
- Implemented responsive interfaces for a consistent user experience across devices.

PROJECTS

Jio Insurance – Insurance Discovery Platform | *Node.js, NestJS, MySQL, React.js, Next.js*

- Built backend APIs and ERP modules for lead management, agent assignment and policy tracking.
- Integrated the customer website with backend insurance workflows through frontend-facing APIs.

Clipa App | *Node.js, Express, MongoDB, React.js*

- Designed REST APIs for company registration, worker onboarding and organization-level team management.
- Built an admin panel with role-based access control (owner / helper / worker) for managing jobs and teams.

Villagehood App | *Node.js, Express, Socket.io, MongoDB, React.js*

- Built a real-time chat module with Socket.io for direct customer–provider communication.
- Developed booking APIs covering service discovery, category-wise listings and the full booking lifecycle.

EDUCATION

Bachelor of Computer Applications (BCA) | *Institute of Professional Studies (I.P.S.), Gangoh* 2022 – 2025

Bachelor of Commerce (B.Com) | *Bhagwati Sher Singh Memorial Degree College* 2019 – 2022
